

# *Science and engineering design research **CAN** be integrated into your NGSS instruction!*

*OCSEF is recruiting veteran and new STEM teachers to support “**under-represented**” middle and high school students in science or engineering design research, preparing them to participate in the 2023 Orange County Science and Engineering Fair.*

Teacher will receive an honorarium of \$500 for participation in the program, contingent on students registering for 2023 OCSEF

Receive 1 FREE professional learning workshop (2.5 hours) AND electronic resources to support every step of your OCSEF journey

Receive display boards (and/or virtual display board Google slide deck) for each student entering the Fair

Become eligible for one \$500 mini-grant to support project-based supplies/equipment (separate application required)

## **PLUS**

*ongoing mentoring and support throughout the academic year!*
